“

I had already attended career events in 2019 when I left my previous job. This helped me to get some greater perspective and talk to other alumni. It was also great to meet and talk with Maya Grassi when I took part in the professional photo workshop and I wanted to keep the conversation going with her. The test reports were comprehensive, professional and very interesting. I appreciated seeing example questions I might be asked about my personality. I was surprised to see that my DISC profile had changed and, the more I thought about it, I could see where this change was coming from. I had confidence in my abilities and my conversations with Maya confirmed my decision to change jobs.

LIFELONG LEARNING

SUPPORT THROUGHOUT YOUR CAREER

- Keep training throughout your career with Rennes SB lifelong learning. You can do this face-to-face or remotely and get executive education services at preferential rates as a member alumnus.

“

Mentoring is important to me because it gives me access to others' learning, it is a way of genuinely sharing information and it has helped me get to grips with salaries and wages. It has also taught me how to make best use of our Alumni Network, which is there to help us develop and open doors for us. At Rennes SB, we are lucky to have a young, well-appointed and very international Alumni Network, so it is important that each of us students and alumni enriches it by sharing some of our experience and time with others.
